

Community Champions 😊

Monday 13th October - Friday 14th November

In this project we will be learning about all the wonderful people in our community who help us in different ways. There are many community champions including: the police, doctors, nurses, firefighters, soldiers, supermarket workers... the list goes on! We will learn that not all heroes wear capes!

Task 1

Do you have any books about people who help us? If not, then perhaps you could visit your local library and see if there are any books about community champions like doctors, the police firefighters

Task 2

Do you know a community champion? If you do perhaps you could interview them and ask how they help people in the community. You can share what you find out in class, along with any pictures with their permission of course!

Task 3

Can you draw a picture of a community champion and talk about what they do? Please write down what your child says under their picture (e.g. "This is a firefighter. They put out fires."). Please bring in your pictures for us to put up around our class.
