

Personal, Social & Emotional Development:

We will be learning to be empathetic by thinking about the environment and the effect plastic has on our wildlife. We will be thinking about ways to solve the problem of plastic pollution and how everyone can help.

Expressive Arts and Design:

We will be designing and making plastic boats to see if they sink or float. The children will be using recyclable materials to make these.

Communication and Language & Literacy:

We will be reading a variety of books all about plastic pollution and the effects that a simple plastic bag can create in the oceans for wildlife. We will be discussing what we can do to take small action and become a plastic-free champion!

Save Our Seas...

Monday 7th June – Friday 18th July

Within this project, the children will explore the effect of plastics on the ocean, the animals that live there and begin to think about what action they can take to help the planet.

Project Vocabulary

Please ensure your child learns these to encourage them to use them correctly in school.
