

Dear Parents & Carers,

This term, we have been learning about Ancient Greece in the project, How Civilised. The children have been fascinated to learn about the civilisation and how this may be similar or different to life today.

Thank you for continuing to support the completion of the children's home learning projects. We know that there is still time to complete these. The children will be spending time in lessons researching their chosen area that has interested them the most and the artefacts that they are producing for their home learning will contribute to their project outcome.

The children would love for the opportunity to share their learning with their families and therefore we would like to welcome you to our Ancient Civilisations History Convention on **Monday 9th February between 2:30pm and 3pm.**

As the children will become young historians, the children are invited to 'dress up' for this occasion. This could be as simple as wearing a different tie or as extravagant as they would like to make it.

We are really excited to be able to share an outcome with you all and are very proud of the work that the children have produced so far. We are really looking forward to welcoming you.

Kind regards,

Year 6 Team
