

After exploring a range of artwork linked to Skellig, your next challenge is to find out about the different birds we can find.

As Scientists, you will need to use your scientific skills to discuss your chosen bird's habitat, food chain, adaptations to its environment and any other scientific discoveries you may make.

Your home learning challenge is to research and present information on a bird that interests you. Your home learning will be shared in class at our 'Hill View Bird Convention.'

Please bring in your completed home learning by **Monday 15th December.**

Mr Nobody

As a Scientist, you will:

- research your chosen bird
- evaluate the sources and choose appropriate facts and information
- demonstrate your understanding of your chosen bird by presenting what you have found out

You may be inspired by these ideas:

- Fact file
- PowerPoint
- Labelled diagram
- Poster
- Booklet
